Subject: Public Hearing Request on Lahaina Wastewater Injection Well Permit

Aloha!

As a boat captain, waterman and lover of the ocean, I oppose the granting of the permit on the Lahaina Wastewater Injection Well unless additional conditions are placed on the permit - similar those contained in the letter of the DIRE Coalition recently submitted to the EPA. While a range of issues and concerns were presented in that letter, because of the severe time limitations, all of the supporting data was not gathered in time, and thus unavailable for your review. DIRE is in the final stages of obtaining all this data, which is critical to the permit process, and should be allowed to submit this vital data at a public hearing. I urge you to allow public comment on this Injection Well Permit by scheduling a public hearing here in Lahaina, Maui, Hawaii.
